

National Surgical Assistant Association Membership Assistance Program (MAP)

The National Surgical Assistant Association Membership Assistance Program (**MAP**) is a voluntary disaster relief fund established to aid current NSAA members for membership dues who suffer hardship, or damage to their property, as the result of severe storms and natural disasters, such as Hurricanes Helene and Milton.

Benefits from **MAP** are paid in varying amounts determined exclusively by funds available, volume of requests, and need.

The online application for relief benefits under the **MAP** is available on the NSAA Website.

The Membership Assistance Program is a permanent, independent, tax-exempt and voluntary disaster relief fund established by the NSAA Board of Directors. The NSAA Board made the initial contribution to this fund at its inception, and the fund is now sustained by NSAA member's individual voluntary tax-deductible contributions.

Contributions can also be made by sending checks or money orders to:
